

# Interview Evaluation Report

## Resume Based

Report Generated: November 07, 2025 at 01:27 PM

Interview Type: Resume Based

Total Questions: 1

Report Version: 3.0

---

I apologize, but I notice that the interview transcript appears to be incomplete, showing only the initial greeting and the candidate's "Yes" response. Without more of the actual interview responses, I cannot generate a comprehensive evaluation report.

To provide an accurate and fair assessment, I would need:

1. The candidate's full introduction
2. Their responses to the 5 main questions mentioned
3. Any follow-up responses
4. The complete transcript with speech confidence scores

However, I can make some initial observations based on the single response provided:

### Preliminary Notes:

1. The candidate's initial response was very brief ("Yes") with a moderate speech confidence score of 78.1%
2. Their resume shows strong technical qualifications including:

- Relevant programming skills (Python, C++, Web Development)
- Impressive AI/ML projects
- Good academic performance (8.66 CGPA)
- Matches well with the job requirements for 7-Eleven GSC

Would you be able to provide the complete interview transcript so I can generate a thorough evaluation report following all the sections you've outlined?
